PROFILE SUMMARY

Motivated Cybersecurity and Software Engineering student currently studying at 1337 School (42 Network). Strong foundations in C/C++, systems programming, networking, and security. Hands-on, autonomous, and driven by problem-solving and real-world challenges.

EDUCATION

1337 School (42 Network) – Rabat

2024 - Present

- Software Engineering & Computer Science: C / C++, algorithms & data structures, UNIX systems, memory management & debugging, Git, collaborative development, backend fundamentals.

ISTA NTIC Safi

2021 - 2023

- Specialized Technician in Digital Infrastructure – Cybersecurity: Network security, vulnerability management, incident response, penetration testing fundamentals (Nmap, Nessus, Metasploit), IT infrastructure hardening (routers & switches) – OCP Group internship.

TECHNICAL SKILLS

Programming

- C, C++, Bash, Python (basic)

Cybersecurity

- Penetration testing basics, vulnerability analysis, incident management

Systems & Networking

- Linux, TCP/IP, routing & switching, Active Directory basics

Databases & Tools

- MySQL
- Git, GitHub, GNS3, Packet Tracer

CERTIFICATIONS

2021 - 2026

- Cisco Networking Academy – Cybersecurity
- OpenClassrooms – Linux Fundamentals
- OpenClassrooms – Active Directory Security
- OpenClassrooms – Digital Security Basics

LANGUAGES

2024 - 2025

- English (Intermediate)
- French (Basics)
- Arabic (Native)
