NASR-EDDINE FARID

Software Engineering Student | C/C++ & Systems Programming

Youssoufia, Morocco | +212 774-507869 | nasrdinefarid@gmail.com
Portfolio: faridnasrdine.github.io | GitHub: faridnasrdine | LinkedIn: nasr-eddine-farid

PROFILE

Software engineering student at 1337 (42 Network) with hands-on experience building a Unix shell in C and HTTP server components in C++. Background in digital infrastructure and cybersecurity, with interests in Linux, networking, and secure systems.

SELECTED PROJECTS

Webserv | C++, HTTP, CGI | 2026

Repository: akrate/webserv-

- Developed parsing components for a custom HTTP server written in non-blocking C++.
- Implemented parsers for server configuration files, incoming HTTP requests, and CGI output.

Minishell | C, UNIX, Process Management | 2025

Repository: faridnasrdine/Minishell_42

- Built the execution engine for a Unix shell, including pipelines, process creation with fork/execve, and file redirection.
- Implemented built-in commands, heredoc handling, and signal handling for SIGINT and SIGQUIT.

ft_transcendence | React, CSS | In progress

- Built frontend components for authentication flows and interactive dashboards.
- Implemented API error handling and client-side state management.

EDUCATION

1337 School (42 Network) | Currently enrolled

Software Engineering & Computer Science

Project-based, peer-to-peer study of C/C++, algorithms, data structures, memory management, and UNIX systems.

ISTA NTIC | Jan 2023

Specialized Technician in Digital Infrastructure & Cybersecurity

Training in network security, routing and switching, system administration, and infrastructure hardening.

TECHNICAL SKILLS

Languages: C, C++, Python, Bash, JavaScript

Systems & networking: Linux/UNIX, TCP/IP, routing and switching

Web & tools: React, CSS, Docker, Git/GitHub

Security: Network security, vulnerability assessment, penetration testing, Active Directory

COURSES & PROFESSIONAL DEVELOPMENT

Boot.dev: Learn JavaScript; Learn Git

Additional training: Cisco Networking Academy - Packet Tracer; Linux fundamentals; Active Directory security

ISC2: Candidate status

LANGUAGES

Arabic: Native | English: Intermediate
